**Overall Assessment Letter for Competition-Pool Inc RCV-53591
FCC id: VXRRCV53591**

I have reviewed this application and find it compliant.

This is an original application for a wireless thermometer receiver. The equipment receives temperature data from the Competition-Pool Inc model TMT-53590 (wireless thermometer transmitter) with FCC ID: VXRTMT53590.

Please note the following:

The operational description was not provided up-front however it has subsequently been provided.

1: Block Diagram

The block diagram was initially provided in Chinese and this was subsequently updated to English.

2: Internal Photos

The internal photos did not initially show both the front and back of the PC board, however the internal photo exhibit was subsequently updated and submitted.

3: User Manual

The user manual has been updated to include FCC CFR47 Part 15.105(b) statements.

I underwent the FCC RF exposure training at BABT in July 2007.

Yours sincerely

Vina Kerai
Compliance Engineer, BABT
